Brightwake Mobile Detailing

A quick tour of what this mobile car detailing concept site does and how to try each feature.

One Page package $300 | 1 scrolling page | Works on phones, tablets, and computers

Open the live site

What this concept shows

Brightwake shows how a service business can fit everything a customer needs onto one fast, scrolling page. Visitors can compare packages, see the work, get answers, and request an appointment without ever leaving the page.

WHO IT'S FOR

A great fit for mobile services, cleaners, landscapers, handymen, and any business that sells a few clear packages.

Features and how to try them

Each feature links to the exact spot on the live site.

1

Sticky menu with jump links

The menu stays at the top of the screen as visitors scroll, and each link jumps straight to that section of the page.

TRY IT

Scroll down, then tap Packages or FAQ in the menu. Open it →

WHY IT MATTERS

Customers find what they want in one tap instead of hunting for it.

2

Package prices by vehicle size

Four packages are shown side by side. Switching between Sedan, SUV, and Truck or Van updates every price instantly.

TRY IT

Tap SUV or Truck or Van above the packages and watch the prices change. Open it →

WHY IT MATTERS

Customers see their real price right away, which cuts down on pricing questions.

3

How it works steps

Three simple numbered steps explain what happens from booking to the final walk around.

TRY IT

Scroll to How it works. Open it →

WHY IT MATTERS

A clear process builds trust with first time customers.

4

Photo gallery with full screen viewer

A gallery of recent work. Clicking any photo opens it full screen, and the last tile is a shortcut to booking.

TRY IT

Click any photo in Our work, then press Escape or click outside it to close. Open it →

WHY IT MATTERS

Photos sell services. Visitors can look closely at the quality of the work.

5

Questions that open and close

Common questions are listed with a plus sign. Each answer opens when tapped so the page stays tidy.

TRY IT

Tap any question in the FAQ section. Open it →

WHY IT MATTERS

Answers the questions customers usually call about, saving the owner time.

6

Booking request with live estimate

The booking form updates an estimated total as visitors choose a vehicle size, package, and add ons. It checks that required fields are filled in before sending.

TRY IT

Pick a package and a few add ons, then watch the total change. Submit the form to see the confirmation. Open it →

WHY IT MATTERS

Turns visitors into booked appointments with no phone tag.

7

Built for phones

Every section rearranges itself for small screens, and the menu collapses into a tap to open button.

TRY IT

Open the page on your phone. Open it →

WHY IT MATTERS

Most customers will find the business on a phone, so the site has to work there first.

Good to know

- Brightwake is a fictional business. The phone number and email are placeholders.
- The booking form shows a confirmation but does not send any information.
- On a real site, booking requests would go straight to the owner's email.
- The features shown are examples of what Jalen Digital can build. Your exact features and pricing are confirmed during your consultation.
